About Us
The UC Irvine Health H.H. Chao Comprehensive Digestive Disease Center (CDDC) provides comprehensive, multidisciplinary gastrointestinal services through a team of dedicated gastroenterologists, surgeons, oncologists, pathologists, radiologists, dietitians, nurses, social workers and case managers. For over a decade, CDDC has served as a regional resource for complex and tertiary care, continually leveraging advanced technology in ways that expand the range of effective diagnostic and treatment options.

As part of the UC Irvine Health Chao Family Comprehensive Cancer Center — the only National Cancer Institute-designated comprehensive cancer center in Orange County — patients can also access clinical trials and therapies not available elsewhere in the region.

More information about our services is available at ucirvinehealth.org/cddc

Accreditation and Disclosure

Accreditation. The University of California, Irvine School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Designation statement. The University of California, Irvine School of Medicine designates this live activity for a maximum of 15 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Successful completion of this CME activity enables the participant to earn up to 15 MOC points [and patient safety credit] in the American Board of Internal Medicine’s (ABIM) Maintenance of Certification (MOC) program. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider’s responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC points.

Disclosure statement. It is the policy of the University of California, Irvine School of Medicine and the University of California Continuing Medical Education Consortium to ensure balance, independence, objectivity and scientific rigor in all continuing medical education activities. Full disclosure of conflict resolution will be made in writing via handout materials or syllabus.
